During the time I occupied the office of Comissioner of Patents, R. th. Eddy, Esq., of Rustonisial businessat the Patent Office, as Solicitor of procuring Patents. There were few, it any, persons acting in that capucity, who had so much business before the Patent Office; and there were some who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesistation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. BY CHANSTON & NORMAN 144 THAMES STREET

THURSDAY HORNING, DEC. 20, 1855.

BF We omitted to state in our last arti cle in regard to the Gas Company, that probably one reason which induced the Bugus Directors to purchase such a large quantity of coal, and at such a high price, was that one of the Bogus Board, Silas II. Cottrell, owned a vessel for which he probably had no employment, and she was chartered by the company to bring the coal; and miother of the Board, William G. Peckham, was anxious to have all the warfage and cartage of the coal that he could get during the year.

The second lecture before the Mechanics' Association will be delivered this evening, at Aquidnock Hall, by the Rev. James H. Eames, of Providence. A leeture will be delivered before the same society to morrow evening, at the same place, by George Sumner, Esq., of Buston; his subject will be "Old England and Young America." Mr. Sumner resided in Europe a great many years, and his tecture will undoubledly be very interesting.

CHRISTMAS AND NEW YEAR'S GIPTS. Tisdale, at his New Store, 116 Thames street, has just received a beautiful assortmen of goods suitable for the approaching holidays. Those in want of goods for this purpose would do well to give him a cill. See his advertisements in another

ROBERT SCHUYLER.-The Crusader, of New York, publishes a letter, dated Turin Nov. 13th, stating that Robert Schuyler, the railroad stock operator, resides in a villa not distant from Genoa. The writer says the governments of Sardinia and the United States are negotiating an extradition treaty, and that Mr. Schuyler is rather opposed to the arrangement.

THE DEMAND FOR HIAWATHA.- It is reported that ten thousand copies of Longlellow's Thawatha' have already been sild, and that the demand in unabated. No other volume of American poetry has ever had such a run in so short a time.

In the Superior Court, at Norwich Ct., last week, Miss Ellen R. Wheeler daughter of Mr. Ephraim Wheeler, deceased, recovered a verdict of \$500 damages against Mr. Rulph Coates, for killing a tine Newfoundland dog belonging to Miss Wheeler, and for injuring her in her efforts to save her pet. The Norwich Courier, says that by the violence with which the dog was dragged from her, she was thrown to the floor and, still maintaining her hold upon the animal, was dragged out of the house and down the stone stope of the door her arms and head were severely bruised and facerated, and her feelings, as may well be supposed, greatly shocked. This centrage was caused by Mr. Conte's suspecting the dog to be guilty of entering his barn, and eating part of a quarter of yeal. Both parties are residents of North Stonington.

A person who desires to remain unknown has addressed to the chief of the Russian legation at Washington a check for lour thousand dollars to be transmitted to his government to be distributed among the widows and orphans of the Russian soldiers who fell at Schastopol bravely fighting for their homes against foreign aggressors.

An Awayand Mistake.-The following good story is told of Gen. Cass, by a cdir. respondent of the Springfield Republican :

'Gen Cass has fixed himself at the 'Nutional' in Washington, the new proprietor of which, Guy, of Baltimore, is a living fac simile of the great Michigander -Thereby hangs a tale. A guest at the hotel lately astonished the Senator by a demand for a better room. About an hour afterwards, as General Cass was leaving the house for the Senate, up came the man again, and this time he commenced his remarks by a familiar slap on the shoulder. 'Now I've got you, old tluy,' said he, and I want you to have me moved down a story or two. Confound it, I thought I asked you this morning, but it; turned out to be old Cass I was speaking to, and he looked as cross as a bear with a sore head," 'Sir," replied the Senator in a stern 1000, and with a pulverizing glance. you are evidently liable to mistakes, for you are now talking to Gen. Casa a second time. Good morning, sir.11

Gen. Houston and the Texas legislature are by the ears. At a Know Nothing meeting at Austin, Gen. Houston made . 8 speech, attacking the administration of President Pierce, and defending his vote against the Nebraska bill. The House of Representatives on the 26th ult. adopted, by a vote of 75 ayes to 3 nees, a reso-Intion declaring that the legislature of Texas disapproves, the course of Sam Houston in voting against the Kansas-Nebrska act.

XXXIVTH CONGRESS-FIRM SEASION

WARRINGTON, Tuesday, Dec, 18. Senare -Mr. Pratt gave notice that he would introduced a bill for the improvement of the Pstaposco river.

Mr. Bayard gave a similar notice relative to Port Penn .-- Adjourned.

House,-Mr. Walker, rising to a personal explanation, defended Southern Know Nothings from the attacks of the Mobile Register, saying they had not only been a target for the press of the country, but used here also as a battledore and shuttlecock, by the Republicans on one side, and the Democrats on the other.

The Democrats have with obstinate party exclusiveness, nominated their candidate and adopted a resolution, which many of the more considerate of them admit was an insult to, and a stigma on the members

The fact must be realised, that if Southern Know Nothings on the opening of this contest had thrown themselves in the ranks of the Democrats, the result would have been a free soil or ganization. He denied that the Democratic party was the nationa party and claimed nationality for the American party.

Mr. Jones, (Pa.,) said had it not been tor Know Nothingism, Pennsylvania would to-day, instead of being represented by six national democrat votes be represented by neventeen. Know Nothingism in Pennsylvanla is perfectly synonymous with free soilism. The gentleman did not meam to impute to him who offered the resolution in caucus, the intentions to insult any individual or class.

The Democracy stand on what they believe to be principal, without compromise-Mr. Allison, in replying, endorsed the idea of his colleague who is a national man.

Had it not been for the ! fact that the people of Pennsylvania condemned the action of the last Congress, there would now be 17 Democrats from that state on this floor, but the Free Soil and Know Nothing parties united, and Pennsylvania is now represented by men, a majority of whom condemn the Nebraska bill.

Mr. Walker replied, in the course of his remarks, that the adoption of the Democratic caucus shows what is, by no means ancommon-namely, the prononess of all men to comfound principles with party, seeming to forget that the two are essentially different.

THE PAPER PLANT IN WISCONSIN .- Under this head (says the Boston Post) we have before us a description of a plant discovered in this country by Mrs. A. L. Beaumont, of Arena. She has furnished us with a fine sample of cotton, and also of flax, from the came plant, which she describes as follows:

"I discovered, two years ago, a plant that yields both cotton and flax from the same root, and believe I am the first person that ever cultivated, spun, and knit from it. I am persuaded that any article that will make as good cloth as can be made from this plant will make good paper; hence I call it the paper plant. It can be planted in the spring and cut in the fall or winter. It bleaches itself white as it stands, and will yield at least three or four tons to the acre. From a single root that I transplanted last spring there grew twenty large stalks, with three hundred and five pods, (containing the cotton,) with first street. This removal is a matter of at least sixty seeds in each. From this root I obtained seven ounces of pure cotton and over half a pound of finx. It is a very heavy plant, and grows from six to seven feet high."

DR. HOLMES AN INVALID.-O. W. Holmes has been obliged to relinquish several engagements to deliver Lyceum addresses in consequence of sickness during two or three weeks past. Here is a characteristic note apologizing for his inability to appear bofore the Cambridge Athonaum:

I have been ill, as you know, for a fortnight, and have been practicing reduction and substruction until there is a mere trifle left in the way of a remainder. I could stand up before an audience from long habit, but I doubt if I could sit down again without assistance. 1 am satisfied that if I were offered a fifty dollar bill after my lecture, I should not have strength enough to refuse it. LOST HIS PULLIT AND HIS BRIDE .- The Richmond Enquirer gives the sequel of a story which has scancalized many good neonla:

A day or two since a Preshyterian minister resigned his charge in Philadelphia, because the rules of his church awould not allow him to marry a lady, in Virginia, who had been divorced. The reverend gentleman came to Virginia, when the lady lives, to claim the boon for which he had resigned his occupation and salary; but the lady, on hearing of his resignation, declined marriage, giving as her reason the desire not to separate church and pastor.

BLEEDING DEVILS TO DEATH .- The Lockport (N.Y.) Journal relates that a respectable farmer in that vicinity recently became so insane on the subject of spiritualism, that his friends were about to send him as a hopeless maniac to the lunatic savium. One of his delusions was that he was "possessed of many devils." A physician assured him that the only way to get rid of them was to bleed them to death-a process which the patient stoutly resisted but the doctor succeeded; and as the blood cozed out, the demented farmer gradually became convinced by the doctor's logic that the devils were throughly bled to death, and it said that he is in a lair way of

THE MARTHA WASHINGTON CASE.—The Cleveland Herald says that the family of the late Sidney C. Burton is left penniless. The Leader says that Mr. Burton, "during his last illness, was occupied in dictating an autobiography for a leading New York publishing house, which would have paid him \$15,000 for the copyright, and who sent here a talented writer, as amanuensis and compiler. Mr. Burton died era onefifth of the work was completed, and it is valueless. It would have surprised the world, damned many who occupy high position, and shown an unparalleled record of crime.

BEMOVAL OF BODIES FROM A JEWISH CEMETERY .-- The work of gathering and removing the remains of those who were interred in the ancient Jewish Cemetery in Olive Street, in the rear of the Tradesmen's Bank, is now going on. In the ground tomb stones are found bearing date 170 years ago. By permission of the city authorities, the bodies exhumed are allowed to be reinterred in the cemetery in Twentynecessity as that part of the cemetery is to he taken for the extension of the Bowery to Franklin square. That part of the ground not required for the same purpose. will be carefully inclosed, and the remains of those interred therein will remain it is hoped, until 'great trumpet Shofar Mesheach shall be spunded, and the dead restored to life.' An immense sum could be obtained for this par' of the ground, but so tenacious are the Jews of not disturbing the remains of their brethren, that nothing but the strong arm of the law can compel it. No amount of gold could induce the Jews to consent to the removal. They to your audience in the politest way you are particularly careful not to disturb the graves of their brethren; and in this case the work is carried on in a quiet and orderly manner, not by the hands of rough lahorers, but hy nious men, under the direction of an ecclesiastic, who is constantly on the ground .- N. > A COSTLY PAUPER ESTABLISMENT .-The people of Newburyport, Massachu. sucts, are rather indignant at the great increase of their city expenditures, and tacts have lately come to light tending to show how the money goes. It appears that the city has sixty four paupers to support, and that at the commentement of the year \$7800 was appropriated as amply sufficient for that purpose. The additional sum of 85000 had to be appropriated a few days ago, when the City Conneil called for items of expenditure. These have been given, and have created considerable astonishment. It never fails in restoring the hair when its loss has been caused by fever or suckness; and sechian requires more than one bottle to arrest its fulfing out.

As an article of toilet it is invaluable as it kneps the hair healths, and gives it an extremely elegant appearance.

Halaness is generally hereditary. Mothers should use it upon their children's heads, as it not merely aids the growth of the hair, but is sure to prevent almante balaness.
